

Site Supervisor Safety Training Scheme (SSSTS)

CITB is the Sector Skills Council and Industry Training Board for the construction industry.

Aims

This two day course aims to ensure that all those given supervisory responsibilities understand:

- Why they are carrying out their identified duties
- What is expected of them
- To ensure that they contribute to the safety of the workplace.

Objectives

At the end of the period of training, delegates will be aware of, and able to:

- Understand the problems of the industry
- Have an understanding of how health and safety law is structured and how it applies to supervisors
- Identify how their supervisory role fits in with the management structure in controlling the site safely
- Carry out risk assessments and understand the need for method statements
- Carry out effective site inductions, toolbox talks and method statement briefings
- Be able to monitor site activities effectively
- Understand the importance of timely intervention when bad practice is identified.
