

# Racking Inspections

## Aims

The aim of this half day course is to enable delegates to inspect and report defects on warehouse racking systems.

## Objectives

At the end of this course delegates should be able to:

- Identify the legal requirements that require a safe place of work
- Understand the limitations of racking systems
- Appreciate and identify the typical and common defects
- Undertake a practical inspection

## Programme Content

- Introduction
- Legal background
- Technical limitations of racking
- Component parts
- Spacing and layout
- Degrees of damage
- Hazard spotting
- Practical session:-
  - Hands on inspection
  - Raising defects
  - Defect reporting process

All delegates will receive a certificate of attendance

Client specific process and procedures can be used throughout this session.
