

Course Aims

To provide basic information and areas of responsibility for health, safety and environment.
To understand the implications of hazard recognition/risk assessment and the effects on individuals and the employer.
To demonstrate how individual behaviour can help reduce accidents.
To build on the basic health and safety information of Core Day programme by concentrating on risks specifically found with working on a Petrol Forecourts.
To allow delegates to recognise hazards, utilise control measures and safe working practices and maintain a safe working environment.

Objectives

On completion of the course delegates will have the knowledge to:

Demonstrate their understanding of the subjects by successfully completing each module assessment paper
Appreciate how they personally can influence good standards within health safety & environment.
Understand the value of risk assessment and have the knowledge to recognise when change to a generic assessment is required
Understand the common hazards associated with working in this sector

Programme summary

Core Day

6 Modules which include
Health & Safety law and responsibilities
Risk assessments
Safe place of work, safe behaviours
Common hazards including fire, asbestos, confined spaces and display screen equipment
