

Course Aims

To provide updated information and areas of responsibility for health, safety and environment concentrating on risks specifically found when working on Petrol Forecourts.
To understand the implications of hazard recognition/risk assessment and the effects on individuals and the employer.
To demonstrate how individual behaviour can help reduce accidents.

Objectives

On completion of the course delegates will have the knowledge to:

Demonstrate their understanding of the subjects by successfully completing each module assessment paper
Appreciate how they personally can influence good standards within health safety & environment.
Understand the value of risk assessment and have the knowledge to recognise when change to a generic assessment is required
Understand the common hazards associated with working in this sector

Programme content

Modules include

Start of the day preparations, the contractor, work and personal protective equipment
Paperwork review, risk assessments, method statements, clearance certificates and permits
Driving for work hazards and controls, pre work safety check list, communications
Fuel hazards, hazardous areas and control measures
Excavations and work at height, confined spaces and electricity on a forecourt
Hazardous substances and controls, noise and vibration
Environmental considerations and control measures
