

Construction, Design and Management Regulations (CDM) Workshop

Course

The aim of this one day workshop is to provide delegates with a practical approach to the regulations.

Objectives

At the end of the workshop delegates should be able to:

- State legal obligations required by CDM 2015
- Identify the requirements of the regulations if a notifiable project
- State the responsibilities, roles and functions of each of the duty holders in CDM
- Identify the main contents of health and safety information packs
- Identify the main contents of the construction phase plan
- Identify the main contents of a health and safety file

Programme summary

- Introductions
- Overview and application of regulations
- Legal aspects associated with the regulations and recent prosecutions
- Roles within CDM – Client, Principal Designer, Principal Contractor and Contractors
- What information should the client provide?
- What information should the designer provide?
- What are the Principal Designer's Responsibilities?
- What are the principal contractor's activities?
- Development of the pre-construction information packs
- The construction phase health and safety plan – development and content
- The health and safety file content

Programme may be subject to change without prior notification

The workshop will encourage discussion on the roles of the parties within the regulations and the development and content of the documentation required. This will be through the application of case studies and syndicate activity.

Fees

£170 + VAT (non-residential).
